Human Computer Interactions II Initial Project Proposal
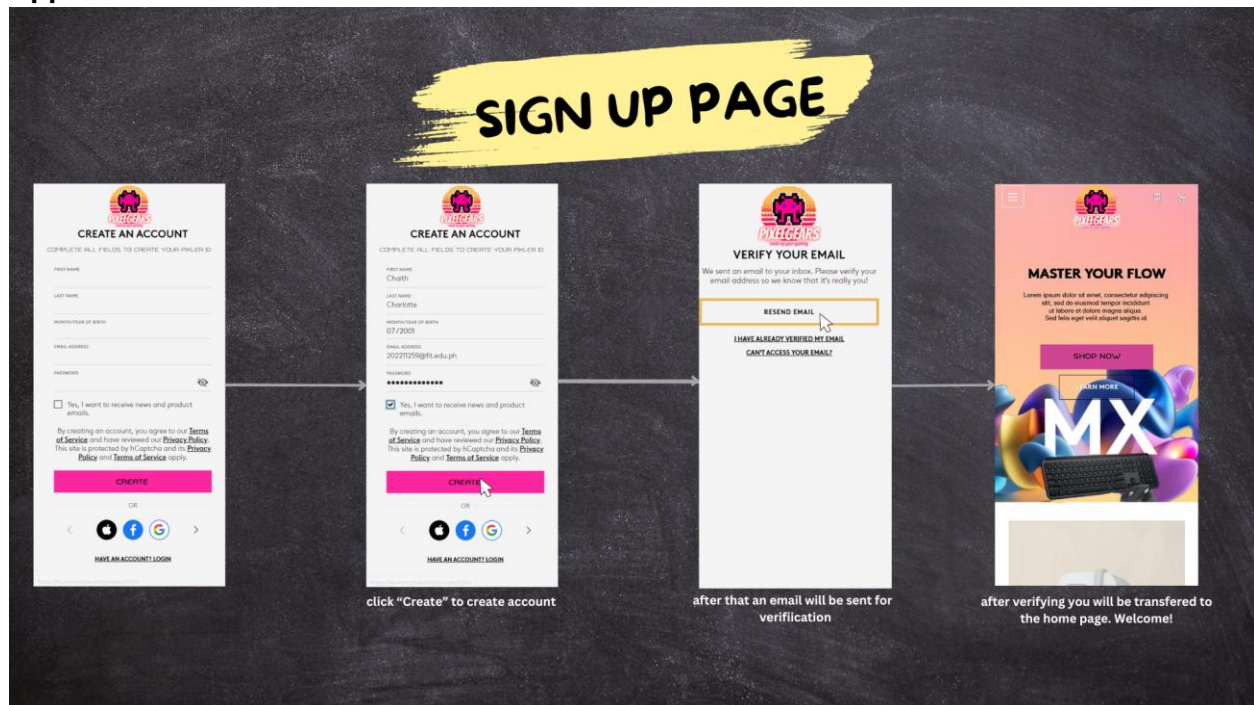

Group Name: The CIV
Group Members:
★ Badiongan, Ivan
★ Carandang, Carlos Benjamin
★ Lucas, Erryn Jan
★ Tejuco, Vincent

**Project Title:** PIXEL Gears {E-Commerce application (Mobile Layout)}

	Features/Functionality	Tip Numbers	Tip Names	Justification/Explanation
1	Sign-up Page	3	How to sign-up	A sign-up page, often known as a page for signing up, is a web page or user interface component that enables users to register for a service, visit a website, or join a platform. A sign-up page's main objective is to gather the essential data from users and create user accounts, which may then be used for a variety of activities like gaining access to content, making purchases, chatting with other users, and more.
2	Log-in Page	3	How to login	A login page, sometimes referred to as a log-in page or logging in page, is a web page or software program interface that enables users to log in to a protected system by entering their credentials, which are typically a username and password.
3	Profile/Edit Profile Page	2	How to change profile	Users can access and edit their personal information and settings on a profile or edit profile page, which is an interface on a website or application. Giving users the ability to manage their own profiles and the way they appear or behave on the website is its main goal.
4	Home Page	1	How to use the home page	Users begin at the home page and it will show some recommended products.
5	Search Bar	4	How to use the search button	This allows the user to search their wanted products which are easier to find than searching.
6	Discover page	1	View the latest updates and products	Product catalogs and pages, sometimes referred to as product listings or product pages, are web pages or listings that provide comprehensive details on the goods and services that are offered for sale in an online store.

| 7	Shopping Cart	3	Show the products inside your cart	Customers can gather and temporarily store the things they want to buy from an online business in a shopping cart, which is a virtual basket or container. It serves as the virtual equivalent of a traditional shopping cart in a physical store.
8	Payments	4	How to pay the product	Customers pay for the goods or services they have added to their shopping cart during the payment processing phase of an online purchase. Secure money transfers from the customer to the merchant are required for this.
9	Recommended Products	1	View recommended products	This helps the user to look up some of the best recommendations that help the user to choose a product.
10	Product Reviews	3	How to rate or view the product's review.	It serves as their overall rating of the product based on their experience from purchasing it which can rate how good is the product

App Showcase:

LOG IN PAGE

Input your account to login

Welcome to the Page!

this will happen if you inputted the wrong email or password

# HOME PAGE

This is what the home page look like.
